Dental School Student Clinic

- 4 RPDs, which is the hardest clinical requirement to fulfill.
- Lots of dental fillings. A student must take and pass 5 class II amalgam filling competency exams.
- 5 endos. I only did 3 and they still let me graduate.
- Lots of scaling and root planning.
- No OS requirement. It can be as little as 20 extractions or as many as 200 depending on where the student picks his/her OS rotation. I only extracted 17 teeth.
- 13 crowns
- 2 bridges
- 2 perio surgeries. The student provides the patients but the perio residents (or perio instructors) perform the surgical procedures. The student just sits there and assists.
- The student must earn 2000 points to graduate. An occlusal Ag filling = 3 points. A gold crown = 12 points. Assisting your classmate = 3 points etc.

Operative: 100 fillings

SU/FPD: 16-18 crowns/FPD retainers

CD/RPD: 8-10 units

Endo: 3 anterior, 3 molar

Perio: 5 perio pt's, 2 that must have 3-4 quads full SRP (the other 3 can be 2-4 quads limited SRP)

Peds: Hard to give exacts, but pretty much Class II fillings/SS Crowns/Space Maintainers/pulpotomies/EXT's

OMS: 75 EXT's

Ortho: N/A
