The Indian Health Service provides health services to American Indians and Alaska Natives. We are currently recruiting physicians, physician assistants, nurses and nurse practitioners to practice patient-centered care to a uniquely underserved population in culturally rich communities throughout 35 states. Clinicians must be U.S. citizens with an active license from any state, and may choose from three different Indian health career paths. Whether you choose the federal civil service, direct Tribal hire, or the U.S. Public Health Service Commissioned Corp, you will enjoy outstanding career rewards, competitive compensation, bonuses, comprehensive health care coverage and opportunities for advancement.

We welcome the opportunity to work with professionals who will help us meet our goal of elevating the physical, mental, social and spiritual health of Native Americans and Native Alaskans to the highest level.
